

02 May 2026

Dear CALC Secretary,

I am pleased to nominate Dr Nikos Koutras for election to the CALC Council.

Dr Koutras is a Full Member of CALC and an active academic at Curtin Law School, with a strong research and teaching profile in legislative design, intellectual property, and regulatory governance. His work consistently engages with issues of clarity, accessibility, and effectiveness in legal frameworks, which aligns closely with CALC's core objectives.

He has demonstrated a clear commitment to the CALC community, including presenting at the 2025 CALC Conference in Perth and contributing to ongoing scholarly discussions in the field. Beyond his academic credentials, Dr Koutras brings a practical and interdisciplinary perspective, bridging legal theory with real-world regulatory challenges.

I consider him particularly well-suited to contribute to CALC's mission of promoting high-quality legislative drafting and fostering international collaboration. His engagement across jurisdictions and his focus on improving the accessibility of legal systems would be valuable assets to the Council.

I strongly support his nomination.

Yours sincerely,

Kyle Bowyer

Lecturer, Curtin Law School, Curtin University

Senior Solicitor, Solve Legal
